

About GeoTerra Surveys

Based in The Maritimes, GeoTerra Surveys delivers innovative, reliable geospatial solutions through our expertise in surveying, geomatics engineering, drone technology, and bathymetric services. With offices in Greenwood, NS and Stratford, PE, we proudly serve a diverse range of public and private sector clients. **We are looking to expand our services to New Brunswick.**

Our team is driven by innovation, collaboration, and technical excellence—working together to deliver projects that help shape the future of our communities. We value collaboration, continuous learning, and the commitment our team brings to every project. Together, we're shaping the future of geospatial technology.

Opportunity: NB Land Surveyor / Geomatics P.Eng.

Join our growing geomatics team and build the foundation for your professional surveying career. In this role, you'll work closely with our licensed Surveyors and Engineers and guide the technical staff with your experience while progressing your geomatics career. We're looking for someone who is technically strong, detail-oriented, analytical, and enthusiastic.

Key Responsibilities

- Supervise field and office staff working on a large variety of surveying projects, including land (legal) surveys, engineering, construction infrastructure projects, UAV and bathymetric surveys
- Must have thorough research and analytical skills pertaining to boundary retracement solutions and can complete survey projects and plans in a timely and professional manner.
- Field work – lead a field crew to gather field data using conventional and GNSS equipment including the preparation of accurate notes and sketches
- Strong project management abilities
- Strong communication skills and professionalism when dealing with clients, government, staff and the public
- Implementing quality assurance on all field returns and office deliverables

Key Qualifications

- Commissioned as a New Brunswick Land Surveyor or able to become commissioned
- Degree in Geomatics Engineering or equivalent
- Physically fit, able to lift heavy equipment
- Willing to work in various environmental conditions with varied terrain, able to work in wildlife populated areas, and willing to work in remote areas
- Qualified as a QP is a strong asset
- Working knowledge of Carlson Survey or AutoDesk Civil 3D is a strong asset
- Experience with RPAS systems including basic and advanced pilot license is a strong asset
- Fluent in spoken and written English
- Valid Canadian Driver's License

Compensation

GeoTerra offers competitive compensation, ranging from \$35-\$50 per hour, tailored to match individual qualifications. The base salary/wage range listed in the job posting reflects the necessary qualifications and experience for the position, with final compensation determined by the successful candidate's qualifications.

Benefits include

- Work-Life Harmony: Balance your personal and professional commitments
- Safe & Inclusive Workplace: Respectful environment supporting professional growth
- Competitive Compensation: Attractive salary and bonuses
- Professional Development: Reimbursement for dues, educational assistance, workshops
- Collaborative working relationship with the firm's principals
- Opportunities for career advancement and personal development

Our Culture

At GeoTerra, we foster an environment centered on innovation, creativity, and strategic collaboration. Our team members are encouraged to be forward-thinking, solution-focused, and engaged in continuous professional growth. We are proud of our positive workplace culture and our commitment to ongoing development and education.

If you are driven to grow your surveying career, passionate about contributing to the profession, and eager to work in an environment that supports your success, we would love to hear from you.

Joining GeoTerra means becoming part of a team dedicated to shaping the future of surveying in The Maritimes—an exciting and rewarding step forward in your career.
