CAREER OPPORTUNITY

SURVEY ASSISTANT

GeoTerra Surveys, Greenwood, NS

GeoTerra Surveys is a well-established professional geomatics services firm located in NS and PEI.

We are looking for a Survey Assistant who is skilled in using a chainsaw, is interested in surveying, is physically fit and enjoys working outdoors year-round.

GeoTerra provides a full spectrum of legal, topographic, construction, drone/UAV mapping and bathymetric surveying services including land development and consulting in both rural and urban settings. Our team provides in-person mentorship and skill development. This position may lead to career advancement for the right individual.

Responsibilities and Duties:

- Working with a survey technician or land surveyor
- Brushing out wooded boundary lines with a chainsaw
- Assisting with legal, topographic, construction, drone/UAV mapping and bathymetric surveys
- Working in both urban and rural settings, including construction sites, in all types of weather
- Ensuring survey equipment and company vehicles are maintained and organized
- Adhering to company safety policies

Requirements and Qualifications:

- Diploma from a recognized surveying or Geomatics program would be considered an asset
- Effective verbal and written communication (English) skills
- Ability to think critically, be well organized with attention to detail
- Experience with survey equipment would be considered an asset
- mechanical and technical competence would be considered an asset
- Must have a valid Driver's license

Benefits:

- Competitive remuneration based on qualifications and experience
- Career advancement

GeoTerra is an equal-opportunity employer. The salary range for this role is between \$17-\$20 per hour, depending on qualifications and experience.

To apply for the position, please send your CV and cover letter in confidence to colin@geoterrasurveys.com. Thank you for your interest. Only shortlisted candidates will be contacted.
